

python™

Language for Rapid Application Development

Course Name: Advanced Python Programming

Description:

Python is an interpreted, object oriented, high-level programming language with dynamic semantics. Widely used for Rapid Application Development, as well as for use as a scripting. Python's simple, easy to learn syntax emphasizes readability and therefore reduces the efforts of program maintenance..

Course Duration	15 Hours
No. Sessions	15
Prerequisite	Basic Computer Skills
Age Group	15 Years Onwards

What you will learn:

- You will learn how to write a complete Python program that takes user input, processes and outputs the results

Certificate : Digital Certificate

Requirements : PC / Laptop
